THE CALIFORNIA POWDER WORKS,

230 California Street, SAN FRANCISCO, Manufacture and have constantly on hand

SPORTING, MINING, and BLASTING POWDER,

A superior quality, fresh from the mills. It is being constantly received and transported into the interior, is delivered to the consumer within a few days of the time of its manufacture, and is in every way Superior to Any Other Powder In the market. We have been awarded Three Gold Medals!

At the MECHANICS' INSTITUTE and the State Agricultural Society for the superiority of our products over all others. We call attention to our Hercules Powder,

Hercules Powder,

Which combines all the force of other strong explosives now in use, and the lifting force of the very BEST BLASTING POWDER.

Thus making it vastly superior to any other compound now in use. Circular containing a full description of this powder can be obtained on application at the offices of any of our agents.

RIDICULOUS CONTROVERSY.

The Oason Appeal observes: The partisan attacks being made on the two gubernatorial candidates in this State smack more of absolute child's play than anything else.

The two candidates now before the people are men of absolutely unassailable records, both in business and private life. It is therefore undignified and puerile to trump up petty charges against either, and throw dust because one cannot throw mud.

Some of our Republican contemporaries are charging Theodore Winters with being a horse breeder, and our Democratic contemporaries charge that Colcord is not a friend of labor and only pays taxes on \$1,600.

There is nothing in the breeding of fine stock that is inconsistent with gubernatorial qualifications, and it is equally consoling to urge that a man's ability to handle a State government should be gauged by the figures set opposite his name on the tax roll.

Both Colcord and Winters have resided over thirty years in Nevada, and not a breath has been ever said over the sage brush against their standing as honorable men.

The charge that Colcord is not a friend of labor has fallen so flat that no one but a few Democratic editors echo it. Good responsible Democrats admit that it is groundless and ridiculous.

No sensible Republican holds that Winters is disqualified for the position he seeks because he has been a successful breeder of turf horses.

It is clear, therefore, that the fight resolves itself to a question of the political principles that these two men represent.

The Republican party has for many years given this State an economical and conservative government. That salaries of State officers are high and the number of useless deputies a matter of general complaint, is no special fault of either party. The laws which allow these extravaganzas were placed on the statute books years ago and endorsed by both parties.

While the Democratic press is denouncing the high salaries and sinecure deputyships, the Democratic party is straining every nerve to get its hands on those same high salaries, deputyships and all.

With 1,200 Republican majority in Nevada, the Democrats can only win by the corrupt expenditure of money at the polls, and as the platform expressly denounces such a procedure, we cannot see how the Democratic Central Committee can allow the sack raised by Messrs. Winters, Mason and Saddle to be used in that way.

It is certain that nothing has taken place in the management of our State Government to cause any Republican to desert his party.

With all campaign nonsense and groundless charges swept aside as purely extraneous matter, about 200 Republican soreheads will vote the Democratic ticket, and about the same number of dissatisfied Democrats will vote the Republican ticket.

This element always neutralizes itself on election day, and Colcord will be elected by 1,000 majority in November, and this result will in no way be affected by the senseless discussion now going on in the partisan newspapers of this State.

Pacific Coast War Ships.

Thus far practical comparisons between the work of Atlantic and Pacific war-ship builders are altogether in favor of the latter. The Philadelphia's steam steering-gear does not work well and she leaks several inches an hour on account of bad fitting to her rudder-post. The Yorktown's steering-gear gave out on the trip across the Atlantic. The Boston's shaft is out of line, and the rocker-shaft bearing on the forward engine of the Newark cracked on her trial trip Thursday. The records of the Charleston and San Francisco are much better. Apparently it is worth while for the Navy Department to spend a few more dollars on San Francisco contracts. It seems to get better value for its money, besides building up the Pacific Coast industry.

The downfall of Dr. Biber and his imprisonment in Switzerland, says the San Francisco Chronicle, were only the natural result of a swindling career. Biber was an accomplished adventurer who made several small fortunes by "salting" Nevada mines and unloading them on the credulous public, but like all men of his class he was sure ultimately to be exposed and brought to grief. His appointment as Nevada's commissioner at the World's Fair was a great mistake, for the position gave him opportunities for carrying on swindling operations in Europe. He played his usual games in Switzerland, but the law laid its heavy hand on him and the public will probably be saved from his seductive tongue for several years.

On Lord Salisbury's return to England from France, Wednesday night, the customs officers seized a lot of liquors and cigars in his carriage. The Premier probably took a logical view of Free Trade, and concluded that if it was good for the hard-bitten British farmer or the half-starved British mechanic, it was equally good for the rich consumer of luxuries.

Hundreds of boomers are crossing the line and preparing to settle in the Cherokee strip. There are several regularly organized colonies, and they are indignant at President Harrison for not compelling the outlaws to vacate. The boomers say if an attempt is made to put them out they will resist.

The annual report of the Western Union Telegraph Company, shows a surplus of \$10,052,953. The increase of profits was \$1,093,683, compared with the previous year. The gross revenue shows an increase of \$1,603,834.

The Salvation Army in Toronto is about to commence the work of rescuing and reforming discharged prisoners.

Lewiston Journal: It seems to be easier to be a Napoleon of Finance than to pay 100 cents on a dollar.

The railroad war in the East between the different lines has reduced the fare from St. Louis to Cincinnati to \$3. The rates are cut correspondingly from nearly all points in the Middle Atlantic States.

The Philadelphia Press thinks that in thirty years the State of Pennsylvania will have a greater population than the State of New York.

Three things for which the United States of America seem to have no use: Chinese immigrants, foreign-built ships and the Louisiana Lottery.

Bee stings are good for rheumatism, so Insect Life reports. It adds that persons suffering from acute rheumatism require a larger number of bee stings in order to be much benefited.

The London Standard fairly works itself into a rage over the McKinley bill in the United States. It seems to think that legislation by the United States for the people of the United States is an outrage on England.

N. Y. Tribune: So Utah wants ten acres of the World's Fair grounds wherein to display its exhibit. The request strikes us as reasonable. One would think that she would need as much room as that just for her polygamy entries.

Boston Traveller: Three-fourths or more of the profits of Louisiana Lottery Company were due to its newspaper advertising. The company will resort to express offices instead of the mails for doing its business, but the fact that it cannot use the newspapers is what threatens it with pauperism.

THE NATIONAL PARK.

The Reservations Made by Congress in the Yosemite Region.

President Harrison last week signed the bill setting apart 48 townships of land adjoining the Yosemite, as a National park. This action is of much importance to California, as it reserves a vast pleasure ground, comprising some of the finest scenery and grandest forests in the world. The nominal area of the reservation is 967,000 acres, being 36 miles in greatest extent north and south and 48 miles in east and west lines. But all this area is not included, because of a clause inserted later which reserves from the provisions of the Act all of the present Yosemite grant now owned and controlled by this State and also all lands for which patents have been issued to bona fide settlers under the land laws. This leaves the Yosemite proper under its present control. The adjoining park in the vast area above mentioned will be under the direct control of the Secretary of the Interior. Opinions differ as to the extent of territory which the provision as to patented lands will reserve.

HUMBOLDT LEGISLATIVE TICKET.

An Old Law Maker's Suggestion as to Its Selection.

The Silver State says: The suggestion that three representative men be selected, independent of their political leanings, to represent this county in the Legislature, seems to meet the approval of prominent citizens in both a and b. Hon. Joseph Organ, who was elected several times to the Legislature in this county, writes that the people of Mill City and Unionville favor it. He suggests that the Central Committee of both parties hold a joint meeting, and as near as may be, determine the probable result in a fair election and what representation each party is entitled to, and name three men for the Assembly and recommend that both conventions ratify the nominations.

JUSTICE MILLER PARALYZED.

He Falls in the Streets of Washington—His Condition Critical.

Justice Miller of the United States Supreme Court has been stricken with paralysis. He is resting comfortably. His mind is perfectly clear. He was returning from the Supreme Court-room Friday afternoon, and when within sight of his residence he was seen to stagger and fall. His servant, John Woodford, who saw him, quickly got him home. The doctors found his left side paralyzed, but he was still able to recognize those about him.

Dr. Lincoln left Justice Miller at 11 p. m. He says the Justice's condition is not near so favorable as it was a few hours ago, and that his case is now very serious.

A Siberian Railway.

The Novos Vremya says the Russian Government will undoubtedly begin the construction of a Siberian railway. It comments upon the strategic and commercial importance of the new railway, which, it says, will induce a closer relation between Russia and America by Pacific routes.

The year 1890 promises to be known as the cyclone year, the record thus far showing a loss of 915 lives, as compared with 153 in 1889, 350 in 1888, and 188 in 1887.

THE OMBURY FAIR.

Disatisfaction Expressed by the People of Douglas.

The Genoa Courier says: Complaints are made in this county about the manner in which the Carson Fair was conducted this year. The last Legislature passed a law appropriating \$1,000 a year for each of the years of 1889 and 1890 for the purpose of aiding each District Agricultural Association in the State, and in addition to this an Act was passed appropriating \$2,500 for the benefit of Agricultural District No. 1, consisting of the counties of Storey, Ormsby and Douglas.

It now looks as though Agricultural District No. 1 had developed into a horse-racing and gambling scheme. No one wants to see the tables turned and the fair made exclusively an agricultural and stock exhibit, still it seems but just that all classes should have an opportunity of representation. The ladies delight in horse races, everybody likes to see an honest contest of speed, and a fair in Western Nevada without horse races would lack the enthusiasm necessary to make it a success. But too-much-of-a-good-thing becomes monotonous. As it is an Agricultural Association, let agriculture at least be encouraged.

The absence of the pavilion is one of the chief sources of complaint. Last year the people of this county took great interest in exhibiting stock at the fair grounds and agricultural products and ladies' handiwork at the pavilion, for which the people of Carson valley were awarded about a dozen premiums.

This year many farmers had planned to exhibit grain, vegetables and various products of the soil, but as there was no place provided for their exhibits, not only they, but their friends also remain at home. We believe that the people of this valley should receive more encouragement in the production of a fine draft horse or roaster, a good milch cow, a fine breed of hogs or an excellent variety of fowls than in the production of a fleet-footed horse.

It is to be hoped that the Carson Fair will be so conducted in future that the people of Douglas will be justified in giving it their hearty support.

SAGEBRUSH VANDALS.

Washoe Indians Extenuating California Deer.

The Record-Union publishes the following. Persistent agitation of the subject has at last attracted attention to the manner in which the deer on the western slopes of the Sierra Nevada, are being rapidly exterminated by hide hunting vandals, and has resulted in action being taken that will probably do much toward abating the evil. It has been the custom for many years past for a half-dozen white men to employ the Washoe Indians by the hundreds to come across the mountains every Fall and slay thousands of deer for their hides. These white men remain at certain points in the mountains, receive the skins from the Indians and smuggle them to the tantries before they can be seen by any person who would be apt to inform on them.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. feb. 21-awt-y

The Silver State says: The suggestion that three representative men be selected, independent of their political leanings, to represent this county in the Legislature, seems to meet the approval of prominent citizens in both a and b. In the event of the Republicans rejecting this proposition, as the Democrats have no candidate, Mr. Organ favors the nomination of three good men on the Democratic ticket and instructing them to vote for John F. Jones for United States Senator against any other Republican in the field. This will insure a fair election unless some Republican, who wants the place of Senator Jones, makes a sack fight.

A cordial invitation is extended to all to attend these services.

A BRUTAL ROBBERY.

Thrilling Experience of a Monterey Citizen With Two Ruffians.

Thursday afternoon Captain E. S. Josselyn, an ex-Assemblyman of Monterey county, left as usual for his home, adjoining the gardens of the Del Monte Hotel. As he drove up to the rear of his house two men suddenly appeared and ordered him to halt. Josselyn attempted to jump from his buggy, but tripped and fell to the ground. The men fired two shots at him as he jumped, both missing. Before he could rise the men jumped on him and beat him unmercifully. They then bound him hand and foot, taking about \$30 from his pocket. They then locked him in a room and proceeded to ransack his house. This done, the robbers returned to him and coolly discussed the question of murdering him, but they finally decided to spare his life.

Leaving him bound, they cooked dinner and invited him to join them, but he refused to do so. After dinner they laid around and enjoyed themselves until 3 o'clock Friday morning, when they went away.

About daybreak Josselyn succeeded in freeing himself and giving an alarm. The robbers left Monterey on the morning train for San Jose, and are being closely pursued. Should they be captured and brought back once is feared, as the citizens are much excited by Josselyn's bruised and wounded condition.

To the Young Democrats.

We, the undersigned young Democrats of Reno, request all young Democrats to assemble at the Court House Monday evening at 8 o'clock to organize a Winters' Democratic Club, to be composed of young men.

DEMOCRATIC COUNTY CONVENTION.

Full Proceedings—List of Nominees and Committees Appointed.

Yesterday, at 11 o'clock A. M., the gavel of J. P. Richardson, Chairman of the Democratic Central Committee, fell, calling the Convention to order. Mr. Richardson then delivered a powerful arraignment of the Republican party, in which he stated that the principles of Democracy are always right and that of the Republican party, as expounded by its leaders, always wrong, which brought forth hearty cheers.

Dr. H. Bergstein was elected permanent Chairman; Lee Updike, Secretary; E. E. Cain, Assistant Secretary; J. P. Richardson, Sergeant-at-Arms.

The following committees were appointed:

Committee on Credentials, F. W. Hagerman, Henry Orr, W. A. Martin.
Committee on Permanent Organization, Charley Galling, Benj. Shaber, Mr. Foxwell.

Committee on Platform and Resolutions, P. H. Mulcahy, F. R. Lewis, C. A. Jones, E. Hardin, Mr. Herdenrich.
On motion, the Convention adjourned till 2 o'clock.

AFTERNOON SESSION.

Promptly at 2 o'clock Chairman Bergstein called the Convention to order. After the reports of the various committees appointed in the morning the Convention proceeded to the election of a nominee for the State Senate. C. A. Jones presented the name of Charles Galling, which was seconded by P. H. Mulcahy. There being no other nominees, Mr. Galling was elected by acclamation and declared the nominee of the Convention for State Senator.

Nominations for County Commissioner, long term, being in order, Dr. Bergstein placed in nomination W. P. McLaughlin, who was elected for that position by acclamation.

For County Recorder, James Foxwell nominated J. B. Williams, who was elected by acclamation as the nominee of the Convention.

The only fight so far was made for County Clerk. Mr. Mulcahy nominated O. H. Perry. S. Jacobs nominated W. W. Rodgers. I. N. Bakeless nominated E. E. Wierfry.

In the second ballot Perry received 31 votes, Wierfry 23 and Rodgers 2. O. H. Perry was declared the nominee of the Convention for County Clerk.

For County Treasurer F. C. Updike nominated Richard Ryland.

There being no other nominees, Mr. Ryland was elected by acclamation and declared the nominee of the Convention.

The office of District Attorney was passed.

For Sheriff, C. A. Jones placed in nomination L. J. Flint who was elected by acclamation.

For Assessor, Thos. Haydon nominated Chas. H. Stoddard who was elected by acclamation.

For Surveyor, Mr. Mulcahy placed in nomination Chas. McFarlin who was elected by acclamation.

It was moved and carried to adjourn for one hour.

At 4 o'clock the Convention again assembled and proceeded to the election of a State Assemblyman.

S. Jacobs nominated F. C. Updike.

Mr. Mulcahy nominated Capt. A. D. Griffin.

C. A. Jones nominated Benjamin C. Shearer.

There being no other nominees, Mr. Updike, Mr. Griffin and Mr. Shearer were elected by acclamation.

The nomination for a District Attorney again coming up, Thomas Haydon moved that the Convention endorse the Republican candidate for that position. Motion voted down. The nomination was then referred to the County Central Committee, after which the Convention adjourned.

THE PLATFORM.

"Recognizing the true worth and straight forward manner in which the Democratic State Convention, held in Reno, September 12, 1890, presented to the people its platform, and the completeness of its scope, we re-assert the principles therein contained and endorse it as a part of the platform of this Convention.

"We lay special stress upon the doctrine of the election of honest and capable citizens of the State and county to offices of securing a free and intelligent exercise of the ballot; of restraining corruptive abuses and usurpations; of adjusting and equalizing taxation, and of perpetuating the fair and honorable name of Washoe county.

"We utterly repudiate the idea, that to be successful in sustaining our principles we should bow down and worship the golden calf.

"In particular we endorse the Democratic State platform in denouncing the present ill-advised and impracticable law, passed by a Republican Legislature, requesting the use of waste water for irrigation and for setting the priority of right thereto, and denouncing the repeal thereof.

"We pledge the nominees of this Convention to the economical and honest administration of the offices of both State and county."

CENTRAL COMMITTEE.

Dr. Bergstein, C. A. Jones, T. E. Haydon, P. H. Mulcahy, J. C. Hagerman, J. B. Cain, S. Jacobs, M. Galling, W. A. Martin, M. N. Scholz, H. Crosby, William Noyes, F. Lemmon, Alex Twaddle, Headenrich.

RENO PRECINCT.

Immediately after the close of the County Convention, the delegates from Reno precinct were called to order by Chairman Bergstein.

J. P. Richardson was nominated for Justice of the Peace but declined. There being no other nominees, the nomination for that office was left to the Reno precinct members of the County Central Committee.

For Constable, Mr. Mulcahy nominated

Dorendo Dickey.

C. A. Jones nominated S. W. Peek.
Dr. Dickey was elected by a vote of 24 to 13.

For School Trustee, long term, Frank Lewis was elected by acclamation.

There being no nominees for School Trustee, short term, it was left to the Reno precinct members of the County Central Committee.

The meeting then adjourned with three cheers and a tiger for the Democratic party.

NEVADA'S PROGRESS.

GROWING ITS OWN CEREALS AND FRUITS—A FINE CROP OF APPLES THIS YEAR.

What D. A. Bender, the Carson Railroad Man, Says of the Silver State.

The San Francisco Chronicle, of Friday, has this:

D. A. Bender, General Freight and Passenger Agent of the Virginia and Truckee and Carson and Colorado railroads, is at the Palace.

"The State of Nevada, as a whole, I feel assured, has seen its worst period," said Mr. Bender yesterday. "Certainly, it presents to-day a better showing for a more promising and permanent future than I have observed for many years past. Although mining and milling ores are considered by outsiders to be our mainstay—nearly every Nevada whose presence in your city is noticed in your papers being mentioned as 'a mining man from Nevada'—let me tell you something of our fine crops this year. I estimate the grain crop of western Nevada at fully 5,000 tons, potatoes from 3,000 to 4,000 tons, hay 74,000 tons. We have at Reno a fine 100-barrel-a-day flour mill, which is making as fine flour from our own wheat as is made anywhere in the country. This means that the State will soon be not only to supply its own population with breadstuffs, but will have a surplus. Heretofore, we have been mainly supplied from outside sources. Thus the business and profits arising from growing our own wheat and making it into flour will accrue to the State. I know of sixty bushels of wheat an acre and eighty of barley being raised this year. In fact, our farmers have never before had such crops nor had better prices in prospect.

"These facts, as they become known generally, in connection with a knowledge of the new lands now being prepared for irrigation and cultivation by persons who are interesting themselves in the development of the State, will certainly attract settlers.

"We have a fine crop of apples this year—say from 250 to 400 tons—of a quality that cannot be equaled anywhere on the coast. The crop is ample for our home demands.

"The quantity and quality of apples, pears, plums and the smaller fruit, particularly currants and strawberries, that will yet be raised and marketed in Nevada will astonish the oldest inhabitant.

"Our mining developments of late years have not been as promising as we had good reason to expect, but they appear to be holding their own. The production of borax in Esmeralda county has shown a gratifying increase, being for the past year about 300 tons. In Inyo county, tapped by our Carson and Colorado Railroad, a fine industry is being created in the production of soda, formed during the hot and dry summer months by precipitating Owens lake water in ordinary earth vats located along the shore of the lake forming deposits of crude soda several inches in thickness. This enterprise will soon be able to furnish all the soda, thousands of tons, which is now imported to the Pacific coast from foreign countries. The Inyo marble quarries, now supplying material for the Mills building in this city, are located near the shore of this lake.

"While the State may show no great improvement within the next few years, still it will improve steadily. A few years will bring additional railroad facilities to portions of the State now undeveloped by reason of being without such facilities. Our people must hereafter turn their attention to more legitimate methods of making a living and getting ahead. Notwithstanding profits in trade and wages generally have always been greater than in almost any other portion of the country, many of our people who should thereby have been well fixed are now 'broke' through constant and persistent gambling in mining stocks. The sooner this ceases the better it will be for the State generally.

"With the best of climate, much good land with an abundant supply of water obtainable from the mountains yet awaiting development, with the new and increased life in mining operations made possible by the advance in price of silver, it will be a wonder if we do not make good progress."

Enthusiastic Republican Meeting.

The Genoa Courier, of Friday, says: The political campaign for this county opened in grand style at Sheridan last evening. R. K. Colcord, the Republican nominee for Governor, made a most favorable impression on the voters, who turned out in large numbers, notwithstanding the stormy night. Mr. Colcord is a man of integrity and his gentlemanly bearing and frank, open countenance, make for him friends wherever he goes.

Francis G. Newlands, in a pleasing and forcible speech discussed the irrigation and water storage question and touched upon the political issues of the campaign. John E. Jones, our present Surveyor General and nominee for re-election, made some good, sound remarks on affairs within the Surveyor General's domain. Mr. Jones is a popular man in Douglas. R. L. Fulton, of Reno, in a well delivered speech, discussed the relative positions of mining and agriculture in Nevada and the opportunities for developing our resources so as to increase our population from six to ten fold.

The Genoa brass band was out in grand style and made a fitting reception for the aspirant to the Executive chair in the Silver State.

Excepting the occasional bursts of applause, the meeting at Sheridan was as quiet and orderly as a church gathering, and the very gentlemanly and non-abusive style of the speakers will make the meeting at Bayreuth's Hall in Genoa to-night an attractive place for ladies and gentlemen of all political proclivities.

In Memoriam.

At a meeting of the W. C. T. U., a committee was appointed to prepare a suitable testimonial expressive of the sentiment of its members for the loss of Mrs. Sarah L. Williams, the following resolutions were adopted:

WHEREAS, In the providence of God, our sister, Mrs. Sarah L. Williams has been called from time into eternity, therefore, be it

Resolved, That in the death of our sister we have lost one who was a firm friend to the cause of temperance and though not always able to be with us in our meetings, was with us in spirit and ever ready to aid us by her influence.

Resolved, That we extend our sympathy to her family who have been called upon to mourn the loss of a loving wife and mother, our prayer for them is, that the God in whom she trusted may so comfort their hearts that they may rest in the hope of one day meeting their dear one in that land where there shall be no more parting.

Resolved, That a copy of these resolutions be sent to the family, also to the Reno papers for publication. Signed by the committee,

Mrs. ELVIRA WARD,
Mrs. A. BANTA,
Mrs. M. I. COOK.

To the Members of the Young Men's Republican Club.

Notice is hereby given, that you are requested to meet at the rooms of the Justice Court promptly at 6:30 P. M. Monday evening, for the purpose of attending, as a body, the Republican ratification meeting which will be held that evening and addressed by Hon. R. Colcord, Egan, Jones, Newlands and others. All members of the Republican party are earnestly requested to stand in with the boys and tender to our distinguished visitors and speakers a cordial and enthusiastic reception.

The following permanent roll call is being circulated for signers:

"We the undersigned residents of Washoe county, having confidence in the doctrines of the Republican party, hereby unite with the Young Men's Republican Club of Reno and agree to support and promote the objects of its organization and labor for the triumph of the Republican party."

Every Republican under the age of 35 years is requested to sign the roll and become an active member of the club. Any young Republican whom the Committee fails to see, is requested to be on hand Monday evening and join the ranks. Now that the first gun of the campaign is soon to be fired, let the young Republicans rush to the front and by their gallant, united and earnest campaign, place on the 4th of next November the banner of Republican victory upon the ramparts of the vanquished Democracy.

C. D. VANDUZER.

President Young Men's Republican Club.

Mr. Winters Speaks About the Gas in His Room.

EDITOR JOURNAL: The item that appeared in the JOURNAL, charging Mr. Winters with blowing out the gas while at Virginia City, is not true. Mr. Winters says he turned out the gas as is his custom when in a hotel. It is also his custom to light a match after turning out the gas and pass it when burning over the jet, which custom he observed at the International Hotel at Virginia. If there was gas escaping in his room it came from defective fixtures; that he could not discover any odor of gas in his room at any time. He says he has been in first-class hotels much of the time during his life and knows how to go to bed in a hotel.

By direction of Mr. Winters.

MISCELLANEOUS.

Dyspepsia

Makes the lives of many people miserable, and often leads to self-destruction. Distress after eating, sour stomach, sick headache, heartburn, loss of appetite, faint, "all gone" feeling, bad taste, coated tongue, and irregularity of the bowels, are some of the more common symptoms. Dyspepsia does not get well of itself. It requires careful, persistent attention, and a remedy like Hood's Sarsaparilla, which acts gently, yet surely and efficiently. It tones the stomach and other organs, regulates the digestion, creates a good appetite, and by thus overcoming the local symptoms removes the sympathetic effects of the disease, banishes the headache, and refreshes the tired mind.

"I have been troubled with dyspepsia. I had but little appetite, and what I did eat distressed me, or did me little good. In an hour after eating I would experience a faintness, or tired, all-gone feeling, as though I had not eaten anything. My trouble, I think, was aggravated by my business, which is that of a painter, and from being in a room with fresh paint. Last spring I took Hood's Sarsaparilla—took three bottles. It did me an immense amount of good. It gave me an appetite, and my food relished and satisfied the craving I had previously experienced."

INSURANCE.

THE
MANHATTAN

Insurance Company.

Assets, \$12,000,000.

The history of the past has proven beyond a

question that an endowment policy in a life insurance

company is a much

BETTER INVESTMENT

Than a savings bank; FIRST, because it is very

much safer—as the law of the State of New York

requires every life insurance company to keep a

Reserve in First-Class Securities

Equal to its liabilities, dollar for dollar, SECOND,

in case of death while making these small deposits,

the life insurance company will pay, just when

most needed by the family, the

Full Amount

Of the sum insured, amounting to 10, 20, or even

30 times as much as has been deposited, or on the

Return Premium

Plan of the MANHATTAN, they would do even more

than this, for they would at death pay the face of

the policy and in addition all the deposits (premiums)

paid, while the savings bank would only return

the amounts actually deposited with interest.

Who would not purchase a valuable piece of

property—a farm for example—worth \$10,000, if he

could have twenty years to pay for it, in small

sums of \$300 per annum with interest on deferred

payments and without any tax on it? The \$300 per

year being only 3 per cent of the \$10,000—a sum

not much greater than that paid annually for taxes

on property in hand, of the same cost, and especially

if he could have the further conditions specially

stated in the contract, 1st, that if he dies

while making these payments—even after one only

has been made—

No Further Payments Shall be Required

And the full title in fee simple to the entire farm

shall at once be given to his family; and 2d, that

if at any time after the three years during the

twenty years he shall be unable to continue the

payments and from sickness or any misfortune,

that then he could discontinue any further pay-

ments and have in fee simple such portions of the

farm as he has paid for; thus, if one fourth of the

payments had been made, he would own one separate

fourth of the farm, etc., and at the same time the

farm be entirely free from all claims of creditors,

under all circumstances, not even to be reached

by writ of execution or attachment issued by any

court, while if living to the end of the twenty years

and the annual payments have been made, the

Entire Property in Fee Simple

is secured.

Now the MANHATTAN LIFE INSURANCE COMPANY

offers all this and more, for instead of offering

LAND on these terms, which is often eaten up by

legal expenses and fees in case of the death of the

purchaser, or swallowed up by a mortgage

given to secure deferred payments, thus losing

the whole amount paid in and leaving the family

desolate, or dependent, it offers a

Specific Bond Secured by Millions

of First-Class Securities.

Agreeing to pay MONEY on the same terms and

conditions as above—the cost per year varying at

different ages, but otherwise substantially the same

terms as above stated, while the sum to be paid at

the end of twenty years will be increased by divi-

dends and compounded interest for the full term,

thus making the investment a very PROFITABLE

and ADVANTAGEOUS one.

PLATFORM AND RESOLUTIONS

Adopted by the Republican State Convention held

at Virginia City, Nevada, September 4, 1890.

The record of the Republican party is its best

platform.

No political party in human history has taken

such advanced positions for the equality of races,

none has so wedded the administration of authority

to the needs of business, none has so managed the

affairs of a State as to encourage the development

of a continent, none has so elevated a nation and

so contributed to the happiness of men, none has

so honestly and economically carried on the routine

duties of office.

In all things it has been the direct opposite of

the Democratic party. Grand in its ambitions and

unparalleled in its resolution in its consistency,

strong in its devotion to principle, it is now, as it

has been from birth, the representative of all that

is noblest and best in the own country and hope

and promise of a better future for the human

race.

In battles for human rights, its preservation of

the Union, its abolition of slavery, its protection

of labor, its elevation of manufactures, its up-

holding of the Nation's credit, its efforts in behalf

of honest domestic methods, its homestead system,

and its devotion to popular education have made

for it the greatest record of any political organiza-

tion this or any other country ever had.

The name of the heroes and legends, the deeds of

Freemont, Lincoln, Grant and Garfield will

shine like electric lights on the pages of history.

The Republic of Nevada, in convention as-

sembled, heartily indorse the acts of the Fifty-first

Congress, which has made greater advances in cor-

rect and useful legislation than any since the war.

The crime of filibustering, so often resorted to

by the Democratic party for the purpose of defeat-

ing legislation, the king of the "log roll," the

"log roll," has been done away with by the genius of

people, McKinley and their associates, and the or-

ganization that has been done away with by the

people for making good is now being paid by the

it had by a strictly party vote, placed the silver

question that will popular edily to free coinage

and disarm all opposition among Democrats.

It has taken up the work of a readjustment of
